Completed in 2016 81%

About Me

A passionate Python Django developer, dedicated to building robust web applications with a focus on the back-end. With extensive expertise in website architecture, design, and web API development, I strive to create efficient and scalable solutions. I have a problem-solving mindset and a goal to optimize applications for enhanced stability and speed. Working in a team environment is something I thoroughly enjoy, as it fosters collaboration and brings out the best in me.
